REMARKS

Claims 1-6 are pending in the present application and have been allowed. The Examiner indicated that the present application is in condition for allowance except for several formal matters.

The Examiner has objected to the drawings because the boxes were not descriptively labeled. In response, replacement drawing sheets for Figs. 1 and 2 in compliance with 37 C.F.R. 1.121(d) are provided.

The Examiner objected to the Specification and the Abstract of the Disclosure because of improper language and/or format. Attached hereto is a Substitute Specification which remedies all of the issues raised by the Examiner. In accordance with 37 C.F.R. § 1.125(b), the Substitute Specification (including the Abstract, but without the claims) contains no new matter. The amendments reflected in the Substitute Specification (including Abstract) are to correct the informalities noted by the Examiner and to conform the Specification and Abstract to U.S. Patent and Trademark Office rules. As required by 37 C.F.R. § 1.121(b)(3)(ii) and § 1.125(c), a Marked Up Version Of The Substitute Specification comparing the Specification of record and the Substitute Specification also accompanies this Preliminary Amendment. Approval and entry of the Substitute Specification (including Abstract) are respectfully requested.

If there are any questions relating to the instant application, the Examiner is respectfully requested to telephone the undersigned.

Respectfully submitted,

KENYON & KENYON
